

# What my Home needs

Walk through your home as though you are stranger or maybe someone who would rent or buy your house. Try to see it through fresh eyes. Make a note of everything that needs to be done (including the invisible stuff).

Room / Area	What needs attention	Who needs to do it? (i.e. do I need to call someone out?)	When does it NEED to be done by? How urgent is it?	Does this job need to go on a regular maintenance schedule?	I am doing this on this day
